Top Five Things Visitors are Looking for:

Wespath launched a newly redesigned website at [Wespath.org](https://www.wespath.org)—for our participants, conferences and plan sponsors. One of the directives coming out of reader feedback about our current site was the ability to find what they were looking for more easily. The design of the new website is a direct result of that feedback, creating a more intuitive user experience. To assist you and your participants in using the website, the following is a list of the five most frequently searched items on our participant-facing website and where to find them.

1. Benefits Access Information
